
MEETING MINUTES AUG. 23, 2024

Old Business

None

New Business

Discussion of ASA's Charges and Goals for the Year: Martha displayed the committee charges. It was noted the PURs take a lot of the committee's time and the committee is over-charged.

The committee also discussed how to best convey the GELO updates. Suggestions were to have a brainstorming session, a professional development workshop, attend department meetings, or send an announcement via email.

Other suggestions were to coordinate with the tutoring center to understand instructor stances on AI, form a joint subcommittee between the AI Committee and ASA, and create a system of appropriate use of AI and what circumstances are appropriate.

GELO Statements: Martha showed the GELO webpages and discussed possible new structures for the GELO lead-in statements and whether they could be made clearer in that section. The committee is to review the GELO's in the shared drive and make suggestions.

Committee Introductions: The committee members introduced themselves and took a few moments to chat.

Next meeting: 9-11 a.m. on September 13, 2024

Meeting adjourned: 10:34 a.m.
