	<p>the points for publishing an article versus a book. It was recommended to send that request to committee for a more through discussion since it is not part of today's motion. A change that received a lot of discussion was compressing the required elements. It was noted as problematic for some departments where the dean might require more detailed documentation. It was suggested to add a space for documentation of those items while limiting redundancies at the same time. It was also suggested to leave S1 A and B for documenting purposes and lump the other items together. The motion was voted on and did not carry, the forms will return to Professional Standards for further work.</p>

December 8, 2023	<p>Motion:</p> <p>To enable to apply score to ungraded feature option in canvas.</p> <p>Rationale:</p> <p>This Feature Option would allow instructors to quickly apply the same score to all ungraded submissions in an Assignment in Canvas. "Feature Option" is Canvas terminology for something that is still in beta-testing; this feature has not been widely released and may have some bugs. This feature would be enabled at the account level by WebCollege, and would apply to everyone at TMCC. For a visualization of how the tool would work, please see the Apply Scores to Ungraded Canvas Guide.</p> <p>Clarifications:</p> <ol style="list-style-type: none"> 1. This allows faculty to assign scores to a group assignment 2. This would not change the way the gradebook looks in Canvas now 3. Instructors can still assign scores/zeros to individual assignments as it is now. 4. This release may have some bugs, but one can avoid it by not using it. 	Motion passed.	Signed by R. Bullis and WCFAC Chair F. Amankonah. Signed as motion received/acknowledged by VPAA Alexander, VPSD Gutierrez, and Dr. Hilgersom .	John Hughes of the WebCollege has confirmed he has enabled the change in Canvas, motion complete .
